AI for Database

FOR TEAMS WITHOUT A DATA TEAM

Ask my database anything. In plain English.

AI for Database is an AI database assistant for teams without a data team.

PROMPT

› **Show stores where refunds spiked this week**

OUTPUT Anomaly chart ACTION → Alert finance team

AI answers from your database

- ✓ Natural language queries
- ✓ Follow-up questions
- ✓ Export to Sheets or CSV

Dashboards and reports in one click

- ✓ Auto-generated charts
